Sample date code

These select models of car seats and boosters use a harness crotch buckle which may become resistant to unlatching over time, due to exposure to various contaminants, like food and drinks. This condition may make it difficult to remove a child from the restraint, increasing the risk of injury in the event of an emergency situation where prompt exit of the vehicle is necessary. There is no such risk if the buckle is functioning normally. These car seats and boosters meet all requirements for crashworthiness under FMVSS 213.

Evenflo is providing at no charge to the consumers who have own affected car seats and boosters a remedy kit that includes a replacement buckle and instructions for installation. The remedy kit is available by contacting Evenflo at www.buckle.evenflo.com or 1-800-490-7591. We have asked consumers not to return these car seats and boosters to retailers.

Please note that it is a violation of federal law for a retailer to sell or deliver any affected product covered by this recall unless the product is remedied. Please contact your Evenflo sales representative with questions about this recall. In addition, we are enclosing a recall poster that we would like you to post in a prominent location for the next 120 days.

We anticipate that with our support efforts we can minimize the disruption this recall may cause and move forward with our growing partnership.
